

IMPLANT KNOWLEDGE

Including training on human specimens

Erlangen, Germany, – December 12-15, 2019

Use your potential together with our competence

We are holding this course under the title “IMPLANT KNOWLEDGE “ offering you the chance to improve your specialist knowledge in the field of implantology. The course has been especially coordinated to provide comprehensive information.

With the help of our expert team, the course will give you an insight into the world of implantology. Emphasis is placed on practical work; hands-on exercises will help you transfer your newly acquired knowledge to your daily work in the dental practice.

A beneficial cooperation

The course runs in cooperation with the Faculty of Medicine at the Friedrich-Alexander University (FAU) Erlangen-Nürnberg, Germany.

In the spirit of the university’s motto “Advance through networks“, the faculties and departments work together. You, too, can benefit from the interdisciplinary teaching and research.

Join up with us on your path to successful implantation.

Friedrich-Alexander University Erlangen-Nürnberg (FAU)

Founded in 1743, Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU) is now one of the largest research universities in Germany with 40,174 students. The five faculties cover the entire spectrum of modern academic disciplines – from humanities, social sciences and theology to medicine, law, economics, sciences and engineering.

One of FAU's defining features is its commitment to interdisciplinary teaching and research, which frequently go beyond the boundaries of individual subjects. In the spirit of the University's motto 'Advance through Networks', the faculties and departments work together to create a virtually unparalleled range of interdisciplinary degree program.
